OLD BUSINESS:

- RESOLUTION # 2022-03 J & R LLC- 400 Leeward Ave. – Block: 1 Lot:46
- RESOLUTION # 2022-04 405 AMBER ST. LLC- 405 Amber St. – Block: 131 Lot:22

PUBLIC HEARING:

APPLICATION #2022-02 POLA SchaK- 229 Eleventh St. Unit C – Block: 208 Lot: 17

The applicant proposes to construct a third floor above the existing rear two-unit condominium and convert the existing first floor condominium unit to storage in order to have the existing building above flood elevation. The Applicant is seeking a Use Variance for the expansion of a nonconforming multi-unit building.

APPLICATION #2022-05 SINGER APPEAL- 1609 S. Bay Ave. – Block: 61 Lot: 3.01

The property contains a single-family dwelling and a two-family dwelling. The Applicant is appealing the decision made by the Beach Haven Zoning Officer that the duplex on the property was a preexisting, non-conforming use and structure pursuant to Section 212-7 (C) and (D) of the Borough of Beach Haven Zoning Ordinance. The zoning officer determined that the duplex was not a preexisting, non-conforming use and structure. The applicant believes that the decision of the prior zoning officer is in error. In addition, the Applicant disputes the prior Zoning Officers assertion that the applicants agreed to convert the two-family dwelling structure to a single-family structure because it was an illegal structure.

APPLICATION #2022-06 ATLANTIC CITY ELECTRIC- 315 Second St. – Block: 152 Lot: 1 & 2

Currently the site contains three electric regulator units that control the intake and distribution of electricity to this section of the Borough. In order to enhance energy service for Atlantic City Electric’s customers, the Applicant is requesting Preliminary and Final Site Plan approval with variance and waiver relief in order to allow the construction of a battery storage system facility. This Battery Storage project is designed to improve the reliability and quality of electrical service for the residents and seasonal visitors in Beach Haven and Long Beach Island during peak times when customer demand for electricity is highest. The Battery Storage System will feed power into the local energy grid on demand for delivery to local homes and businesses.

DISCUSSION

Ordinance 212-9G(3) regarding two entrances to each dwelling.
ADJOURNMENT
